Dear Lee:

Unfortunately, the First District Court of Appeals has decided to affirm your conviction and sentence. Enclosed you will find the opinion issued by the Court which sets forth their reasons for their decision.

I have instructed Lee to contact the Ohio State Public Defender's Office for purposes of securing new counsel to represent him before the Ohio Supreme Court on his direct appeal. Although I believe we raised each and everyone of the applicable issues in Lee's case, a new attorney might be able to raise new issues or rephrase some of the other arguments we made before the Court of Appeals. Please have Lee's new attorney contact me to arrange for a transfer of our files. If you should have any questions or comments, don't hesitate to contact me.

Very truly yours,

pmh
file post conviction relief petition to court

Dear Mr. Deardorf,

As you may or may not be aware, on 3/29/95 the Senate passed a bill promulgating new requirements for post-conviction. Later that year the House passed this same bill (5/31/95). It was concurred on 6/6/95. Following the concurrence by the Senate and the House, Governor George Voinovich signed this bill (6/20/95) making it effective on 6/21/95.

The particulars of this bill requires a petition for post-conviction relief be filed within 180 days of the filing of the trial transcript in the Court of Appeals or the Supreme Court in a death penalty case. The language of this bill that i would like to emphasize to you most states as follows: "Persons currently incarcerated have one (1) year from effective date to file Post-Conviction petition".

In essence, regardless of whether or not i'm still in my first stages of direct appeals, i'am required, should i wish to utilize this particular appellate remedy, to initiate a petition for post-conviction. To advise you, my intentions are just that; to file a petition for post-conviction so as to supplement evidence dehors the record. Doing so i believe would create a strong possibility in establishing my conviction and sentence to be void or voidable.

With this new bill being in effect and applying to an aspect of my appellate review i would like to inquire of you as to whether or not there were any intentions on your part to make the necessary preparations and represent me on this matter? If for some reason you are unable at this time to provide such a service in handling my post-conviction, then please immediately contact the Ohio Public Defenders Commission and

008763

of my situation. Hopefully as a result, they will be able to provide adequate and trained representation to handle the preparing and filing of my petition for post-conviction.

At this point, should you not be able to provide assistance in the filing of my petition i will be in a most unfortunate position of having to rely on my own vices. And being that i have absolutely no legal experience or training in this area of appellate law/procedure i'm afraid that i will be forced to regrettably waive this very much needed avenue of appellate review.

So please, it is of paramount importance that you contact the Ohio Public Defenders Commission on my behalf, should you not be able to provide service, for purposes of seeking securement of adequate and legally trained representation in this area of appellate process.

In closing, i would like to thank you in advance for your time and attention on this matter. I look forward to receiving your response in the very near future.

Yours truly,

Lee Moore Jr.

Dear Lee:

Thank you for your letter of March 10, 1996. I would be more than happy to order copies of all those documents, which as you can see are very, very extensive. The copying charges are probably going to run at least \$100.00. If you want to contact your mother and/or your father, please do so that we can get these documents copied. I would estimate that the bill from Kinko's would be in that range; it could be more, it could be less. As soon as I receive the \$100.00, I will certainly get you copies of the same.

As you know, the Court of Appeals has taken your case under submission and has not made a decision; however, as I explained to your sister Beverly, I believe that the Court of Appeals in this county is not going to be favorable to overturning your conviction. I do believe that this case, like all death penalty cases, have to be won in the Supreme Court of Ohio and post-conviction relief matters that have to be filed this summer. I have my law clerk preparing your post-conviction relief matter at this time. I will wait to hear from you regarding the copying cost.

If you have any questions or comments, please don't hesitate to contact me.

Dear Mr. Deardorf,

How are you this evening? Fine, I hope. I'm writing in regards to my trial transcript and a number of other relevant document's that you may have come to acquire during the preparation of the brief that was filed on my behalf.

More specifically, I'm in need of these document's for purposes of conducting my own research. Without them I find it very difficult to locate and develop further upon the issue's that have already been raised and those issue's that are there but just haven't been discovered as of yet.

I realize that the court has possession of the trial transcript for its review, but if you've made a copy of such I was hoping that you could make another copy for my personal use. It would be appreciated greatly.

The following document's are what I'd like to request a copy of:

- 1). Trial transcript;
- 2). Sentencing Opinion [document's];
- 3). Verdict's on each count;
- 4). Jury poll;
- 5). Any and all document form exhibit's;
- 6). Copies of photographs viewing crime scene/victim, and all those which were introduced into evidence;
- 7). Criminal complaint(s);
- 8). Preliminary hearing transcripts;
- 9). Pre-trial transcript;
- 10). Indictment;

008767

11). Coroner's report;

12). Any and all motions that may have been filed on my behalf [pre-trial/trial/post-trial].

In closing, i'd like to thank you for your time and understanding in this matter.

P.S.

Would you please include the BILL of PARTICULARS.

Yours truly,

Re: State of Ohio vs. Lee Edward Moore
Case No.: B9400481

Dear Herb:

Over the holidays, I spent some time looking over Lee Moore's file concerning possible issues that may be raised on appeal. We filed many of the standard "Death Penalty" motions and I'm sure the denial of these motions should be included in your brief.

There was also a motion filed and hearing conducted concerning suppression of the Defendant's statement and suppression of various searches which occurred. This hearing was conducted before Judge Morrissey and occurred on May 5, 1994 and you can certainly address denial of this motion in your appeal.

In addition, there were a number of issues that arose in the course of the actual trial which should at least be reviewed. They are as follows:

1. This case was originally assigned to Judge Morrissey. Jury selection was scheduled for 11-7-94. On 10-31-94 this case was reassigned by Judge Cartolano to Judge Ruehlman due to "Judge Morrissey being heavily engaged in other cases. . ." On 11-1-94 I filed a Motion To Reassign Trial Judge and this was argued in open court. The basis of the motion is that Judge Ruehlman was assigned this case in contravention of the Local Rules. Such a procedure allows for "selective" assignment of ~~death penalty cases rather than random assignment as required "by lot"~~. This assignment becomes all the more objectionable when you review Judge Ruehlman's comments at sentencing.

008778

2. Upon receiving the Questionnaires that were used, we learned that the prospective panel of 50 or so people contained approximately 4 or 5 blacks, of which I believe only one was a black male. We made an oral motion for a new panel arguing that this was not a fair cross-section of the community and denied to the Defendant his right to due process and equal protection of the law. A hearing was also conducted in open court and our request was denied.
3. Please review the Voir Dire and pay specific attention to Judge Ruehlman's comments when deciding to remove or keep a juror on the panel. I believe there was one juror whom I spent a fair amount of time with who indicated that she was very uncomfortable with handing down a verdict of death. Nevertheless, she did indicate that she could follow the law and yet Ruehlman removed her.
4. The prosecutor did remove one or two blacks from the panel and we made a "Batson" challenge which was argued on the record at side-bar. Our objection was denied but this should be reviewed and addressed, if appropriate.
5. I believe on Voir Dire, and I'm sure later in the course of the trial, we had problems with one particular juror who appeared to us to be sleeping. We brought this to the attention of the court on several occasions with discussions on the record at side-bar and the court eventually removed this juror. Judge Ruehlman's comments in this regard should be reviewed as to a possible issue concerning his disposition as to ~~moving trial along rather than assuring that the Defendant received a fair trial.~~ I don't recall if we moved for a mistrial or not because of this and perhaps failure on our part may be the basis for error.
6. One issue that I always raise with Judge Ruehlman is his policy that he does not permit you to state the basis for or argue any objections in open court, in the presence of the jury. He does permit you to place any objection you may have on the record at a later time, but as a practical matter it is often too late; he has already made his ruling and the objectionable question and/or testimony has been admitted. Additionally, the prosecutor may not

know the basis of the objection and is unable to respond appropriately. At one point early in this trial, I believe Mr. Deters even indicated to the court that he would like to know the basis of one of my objections so that he could respond. Judge Ruehlman does not permit you to argue or explain your objection and I think such rulings can provide the basis for the claim of denial of a fair trial.

7. Review the prosecutor's closing arguments at both the trial and penalty phases. I believe I objected to some of his comments and I recall that I even placed these objections on the record at side-bar, citing appropriate case authority.
8. Several additional motions were filed after the trial phase addressing various issues concerning the penalty phase. Many of these motions included requests for instruction and I believe all of these were denied. I believe we had argument on the record and I think I renewed my objections prior to submission to the jury. In particular, I ask you to review my request concerning "Merger". I believe Judge Ruehlman merged some of the specifications, but again I think you have a valid issue for review on appeal.

These are some of the major areas that merit consideration as issues on appeal. You will have to review the transcripts of the Motion To Suppress as well as both phases of trial. I again ask you to pay close attention to Judge Ruehlman's comments at sentencing. These comments seem to me to provide justification for requiring that cases be assigned "by lot" rather than by preference or choice. If you have any questions, give me a call.

Sincerely yours,

Daniel J. James
